

#1 NEWSLETTER  
SUMMER 2024

## Welcome to our first newsletter

### Welcome VERSAPRINTERS!

As we celebrate our one-year milestone, we're excited to share the latest updates and achievements from our innovative battery research initiative.

In this issue, you'll find detailed insights into our project advancements, including our groundbreaking developments at cell- and module-level for enhanced battery safety and performance. We'll also highlight our presence at key industry events, our active participation in clustering activities, and the collaborative efforts driving our success.

Keep reading and discover it all!

## News

Building Blocks  
(BBs)

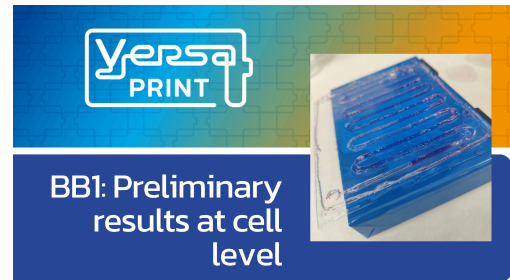

### Building Blocks: Introducing VERSAPRINT's key innovation

These versatile technical solutions, achieved through cutting-edge 2D/3D printing directly on cell or module components, promise to reshape the European battery landscape.

## LEITAT develops preliminary results at cell level

Discover our key preliminary results at cell level, focused on the proof of concept of our first technical solution – Building Block 1 (BB1).

## Events

### VERSAPRINT at the Battery Innovation Days 2024

We will participate in the upcoming edition of Battery Innovation Days, joining forces with our cluster partners in a shared booth.
