

WEBINAR

Modelling & Simulation approaches for battery pack design optimisation

24 MARCH 2026

10:30- 12:00 CET

[REGISTER HERE](#)

- 10:30** Introduction and framing
Welcome and context setting of the webinar
Speaker: Iosu Cendoya, CIDETEC
Project coordinator BATSS project
- 10:40** Session 1: Key aspects to be modelled and simulated
Discussion among speakers and Q&A session
BATSS project: Stéphane Chevillard, IFP Energies Nouvelles
EXTENDED project: Carlos Micó, Polytechnic University of Valencia
NEXIBAT project: Arash Moaven, Barcelona Supercomputing Center
TEMPEST project: Katerina Fragiadaki, University of Patras
VERSAPRINT project: Felix Elsner, RWTH Aachen University
Moderator: Iosu Cendoya, CIDETEC - BATSS project
- 11:15** Session 2: How do we validate our approaches?
Discussion among speakers and Q&A session
- 11:50** Conclusion & Wrap-up

Organised by  **BATSS**

in collaboration with EU-INGENIOUS

Funded by
the European Union
